

Project Development Phase
Model Performance Test

Date	02 October 2026
Team ID	6ab8b403c23107aaaa72d105 (Team 23)
Project Name	Auto Ticket Classification using Flow Designer
Maximum Marks	4 Marks

Model Performance Testing:

Project team shall fill the following information in model performance testing template.

S.No.	Parameter	Values	Screenshot
1.	Metrics	Classification Metrics: Not applicable as no trained ML classifier is used. The project uses Flow Designer decision logic for ticket classification. Validation Evidence: Functional test tickets were used to verify classification, field updates, and routing behavior.	Evidence: Test cases and Flow Designer execution details.
2.	Tune the Model	Hyperparameter Tuning - Not applicable. Validation Method - Rule/condition validation using representative ticket scenarios, including positive and negative inputs.	Evidence: Classification condition tests and retest results.
